Hiring Manager  
Valve Corporation

Dear Hiring Manager,

I hope this letter finds you well. My name is Rem Carl M. Antonio, and I am writing to express my sincere interest in joining Valve Corporation. I am submitting my resume for your consideration with the hope of exploring potential opportunities to contribute to your esteemed company.

As an aspiring member of the Valve team, I am eager to align my skills and experiences with the innovative work being done at your organization. I understand that Valve values a diverse set of talents and perspectives, and I believe that my background in .NET Framework, ASP.NET, and intermediate knowledge in Unreal Engine 4 could be a valuable addition to your team. I am committed to promptly learning and gaining experience in any additional skills that may be required.

I am aware that Valve has a reputation for employing some of the most talented individuals in the industry, and I recognize that there may be a gap between my current skill set and the standards upheld by your development team. However, I am committed to continuous learning and improvement, and I am eager to bridge any gaps in my abilities to meet the high expectations set by Valve.

While I acknowledge that there may be differences between my skill level and that of the average developer at Valve, I am confident in my ability to adapt and grow within your dynamic environment. I am dedicated to honing my craft and developing the expertise necessary to thrive as a member of your team.

Please understand that my intention in highlighting the disparity in skills is not to be rude or offensive, but rather to demonstrate my self-awareness and willingness to learn. I have the utmost respect for Valve and its employees, and I am approaching this opportunity with humility and a sincere desire to contribute positively to your organization.

I would be grateful for the chance to discuss how my background and skills align with the needs of Valve Corporation. Thank you for considering my application. I look forward to the possibility of contributing to the continued success and innovation of your company.

Sincerely,

Rem Carl Antonio
