

Greetings,

Was excited to learn about the Appointment Setter posted on indeed website and would greatly appreciate your considering my placement in this role, the job I've work before is similar to the description provided as the clients are from US practices in dental. I've closely reviewed the needs and requirements for this role and believe that my qualifications have prepared me to contribute immediate value to your company/organization, the reason why I said that I have the qualification even though having only a year of experience in Tech Support is that I'm fast at learning things as I go and learn and I'm highly trainable, strong knowledge and eagerness to learn in field of technology using my skills in computer science, excellence in analysis when adjusting and critical thinking is my skills that I'm confident in.

Kind Regards,

Rem
